Editorial

Dimapur Government College Journal is an interdisciplinary Journal that provides a platform to the teaching fraternity and research scholars to translate their research works into a written form, so that others may also read and refer their works or findings in the furtherance of knowledge development.

Today, as the world advances in all fronts, pursuit for new knowledge is indispensable. Society develops on the basis of academic contributions from its members through research activities. Society expects academic institutions to be the centres of knowledge generation, where members are actively involved in the quest for knowledge. Therefore, as teachers and students everyone is expected to contribute towards a knowledge society, only then the very purpose of teaching and learning is fulfilled.

The current Journal brings out a volume of multi-dimensional approach, touching upon various disciplines of study by different scholars that makes the journal interesting to read. Most of the papers have been contributed by the faculty of Dimapur Govt. College, which shows that the researches among the faculty are in the upward trend.

The Editorial committee has the pleasure to thank all the writers who have contributed their research papers for the publication. We also express our gratitude to the Principal,

Dimapur Govt. College for his constant support for the successful publication of the third volume of our Journal.

It is indeed a joy to bring out this issue as a reviewed journal, which has been reviewed and approved by the Review Board Members. We thank the members for their support. We hope that this volume would enrich the readers in the pursuit of knowledge.

Foreword

It gives me immense pleasure to write this foreword for the Third issue of the Dimapur Government College Journal. The quest for learning and writing has only improved with the passing of years and the publication of this journal is a testament to the development in academia. It provides an apt platform for scholars - budding and established to demonstrate their findings.

Writings that are centered on contemporary studies reflect the multi-faceted patterns being traversed by the society of the day. In the not so recent past, it has often been the case that studies on the region have often been undertaken by people from the outside. Today, it is a matter of honour for a people to have scholars working tirelessly on studies related to the issues of the times.

The current issue of the journal contains a blend of studies on matters of school education; the economic status of Naga women; the North-East as a viable economic zone of the country and of voting behaviour as observed in the past Lok Sabha elections. The journal also includes a study on the socio-cultural interdependence of Zunheboto and its villages; a guide on studies in social sciences; a paper on the symbolic significance of religious language; and a historical perspective on the Japanese invasion of the Naga Hills in 1944. Thus, the objective of setting up an interdisciplinary publication has been achieved through the compilation of these interesting papers.

Despite being at its nascent stage, the DGC journal has added more feathers on its hat. It has become a referred journal and been included among the indexed Journals of India. For these and more, i heartily congratulate the efforts of the editorial team as well as the DGC Internal Quality Assurance Cell. This, I pray, is only a foretaste of more feats to follow.

May these academic efforts stand the test of time!
