Subject: *Request to commence classes in sociology and Psychology*
Sir,

With respect, the DGCS, on behalf of the students of DGC would like to submit this representation for your perusal, consideration and necessary action thereof.

That, DGC being an accredited and a reputed institution many students from various part of the state got admitted with high expectations. However to our great disappointment, classes for sociology and Psychology is yet to be started despite the fact that classes are in full swing in other departments from 1.6.16.

That, in this highly competitive academic environment the students of sociology and Psychology cannot effort to sit idle in the current semester system wherein evaluation is a continuous process in terms of attendance, class test, assignment, which will be reflected in the end semester results.

That, we learn from a source that recruitment of teacher has not been ~~done~~ in these ~~two~~ departments. If our information is true, we have every reason to believe that the government has taken the students for a ride and playing with the career of the students in this prestigious institution.

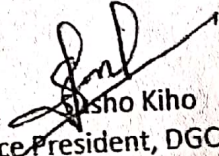

That sir, all effort should be made to resume classes in these two departments, lest the career of the current batch of students will be affected, which cannot be made up considering the tight schedule in a time-bound regimen. In view of this exigency, we request you to take necessary steps to get classes started for the aforementioned departments at the earliest.

We will be grateful if ^{you} kindly take up the matter on priority with the government in the interest of the students.

Yours faithfully

General Secretary, DGCS
