The guidelines incorporate the principles of the newly introduced National Education Policy (NEP)-2020 which lays emphasis on imparting holistic and multidisciplinary education to learners. NEP-2020 states that such “education would be aimed at developing all capacities of human beings – intellectual, aesthetic, social, physical, emotional, and moral in an integrated manner” (NEP, 2020), and this is an important consideration of the guidelines for implementation of CURRICULUM AND CREDIT FRAMEWORK FOR UNDERGRADUATE PROGRAMMES under Nagaland University.

1. DEFINITIONS, ELIGIBILITY, AND DURATION OF THE PROGRAMME

1.1 SEMESTER/CREDITS

A semester comprises 90 working days and an academic year is divided into two semesters

- The workload relating to a course is measured in terms of credit hours. A credit is a unit by which the coursework is measured. It determines the number of hours of instruction required per week over the duration of a semester (minimum 15 weeks).
- Each course may have only a lecture component or a lecture and tutorial component or a lecture and practicum component or a lecture, tutorial, and practicum component, or only practicum component. For example, a three-credit lecture course in a semester means three one-hour lectures per week with each one-hour lecture counted as one credit. In a semester of 15 weeks duration, a three-credit lecture course is equivalent to 45 hours of teaching.
- One credit for tutorial work means one hour of engagement per week. In a semester of 15 weeks duration, a one-credit tutorial in a course is equivalent to 15 hours of engagement.

- A one-credit course in practicum or lab work, community engagement and services, and fieldwork in a semester mean two-hour engagement per week. In a semester of 15 weeks duration, a one-credit practicum in a course is equivalent to 30 hours of engagement. • A one-credit of Seminar or Internship or Studio activities or Field practice/projects or Community engagement and service means two-hour engagements per week. Accordingly, in a semester of 15 weeks duration, one credit in these courses is equivalent to 30 hours of engagement.
- A course can have a combination of lecture credits, tutorial credits, and practicum credits. For example, a 4-credit course with three credits assigned for lectures and one credit for practicum shall have three 1-hour lectures per week and one 2-hour duration field-based learning/project or lab work, or workshop activities per week. In a semester of 15 weeks duration, a 4-credit course is equivalent to 45 hours of lectures and 30 hours of practicum. Similarly, a 4-credit course with 3-credits assigned for lectures and one credit for tutorial shall have three 1-hour lectures per week and one 1-hour tutorial per week. In a semester of 15 weeks duration, a fourcredit course is equivalent to 45 hours of lectures and 15 hours of tutorials.
- The following types of courses/activities constitute the programmes of study. Each of them will require a specific number of hours of teaching/guidance and laboratory/studio/workshop activities, field-based learning/projects, internships, and community engagement and service.

1.2 MAJOR AND MINOR DISCIPLINES

MAJOR DISCIPLINE is the discipline or subject of main focus and the degree will be awarded in that discipline. Students should secure the prescribed number of credits (about 50% of total credits) through core courses in the major discipline.

MINOR DISCIPLINE helps a student to gain a broader understanding beyond the major discipline. For example, if a student pursuing an Economics major obtains a minimum of 12 credits from a bunch of courses in Statistics, then the student will be awarded B.A. degree in Economics with a Minor in Statistics

Note: 50% of the total credits from minors may be secured in the relevant subject/ discipline and another 50% of the total credits can be earned from any discipline as per students' choice.

Students are advised to choose Minor discipline from other relevant subjects in such a way that the knowledge gained from the Minor papers enriches the study of the Core Major course of the student.

Note: A core course offered in a Major discipline/subject may be treated as an Minor core course by other discipline/subject and vice versa.
