In his address to the audience, Dr. S.C. Jamir expressed his warm congratulations and greetings to the college on the achievement of its 59th Foundation Day, and urged the college to introspect and analyse on what could have been done on its way to progress. Commenting that reputation is the biggest strength, Jamir exhorted the college to reflect on its duty and responsibility towards further enhancing the image and reputation built over the last 59 years. He remarked that knowledge determines the academic muscle of a country. Observing that so far, we have had only passive learning, he stated that we need to build learning tools and modify education system accordingly by harnessing technology. Jamir also emphasised on the need of teachers to update themselves with the changing times in the modern world. He commented that there is proliferation of knowledge all over the world, particularly in technological knowledge, and questioned if we are aligned to the many needs and challenges of our time. Jamir noted that the best way to predict the future is to build it, and therefore, he exhorted the audience to take care of the present, of what is in our hands, that is, today, and the future will be taken care of. With all the facilities and education Nagas have today, he questioned as to what kind of Nagaland we want to build. He further said that we have placed everything in one basket (politics) which has hindered the growth of Naga society. Stating that "isms" have dwarfed Nagaland, he commented that we should get rid of the numerous "isms" from our society. Lastly, he stated that the dynamic young people of Nagaland have the capacity to compete, and should therefore, compete with the rest of the country and the world. He exhorted the young people to treat themselves as citizens of the world and of India, to pave the way for a better Nagaland, to be an instrument and an asset for the building of Naga future, and to make Nagaland livable for every Naga where everyone will live without differences.
