In Collaboration with
Internal Quality Assurance Cell (IQAC), DGC

Venue: Dimapur Govt. College, Dimapur : Nagaland

RATIONALE OF THE WORKSHOP

The proposed Two-Week Online National Workshop on Research Methodology for College and University Teachers is designed to strengthen the research capacity of educators in an increasingly knowledge-driven academic environment. With the growing emphasis on quality publications, interdisciplinary inquiry, and evidence-based teaching, there is a pressing need for faculty members to be equipped with rigorous methodological skills.

This workshop aims to bridge the gap between theoretical understanding and practical application of research methods. It provides a structured platform for participants to engage with key components of research, including problem formulation, literature review, research design, data collection, statistical analysis, and academic writing. The online mode ensures wider accessibility, enabling participation across diverse geographical locations without logistical constraints.

By fostering critical thinking and analytical skills, the programme will empower teachers and scholars both to undertake meaningful and ethically sound research. It also seeks to enhance their ability to mentor students effectively, thereby contributing to a stronger research ecosystem within institutions. The collaborative initiative, supported by national-level academic bodies, underscores its commitment to academic excellence and capacity building.

Ultimately, the workshop is expected to contribute to improving the quality of research output and promoting innovation in teaching and learning practices in higher education. Eminent resource persons from renowned universities and institutions in the country will provide exposure to the theme and will interact with the participants on a broad range of topics in research methodology.

Dimapur Government College: A Brief Profile

Dimapur Government College is a premier higher education institute in the state of Nagaland, established in the year 1966. Initially, it was affiliated to Guahati University and later to North Eastern Hill University (NEHU). It is now affiliated to Nagaland University since its inception in 1994. In keeping with its mission, "Impact Through Quality Education", the college is committed to a high quality teaching and learning environment towards holistic development of students and uplift of the community. A multidisciplinary institute, the college offers Four Year Undergraduate Programmes (FYUGP) in Arts, Commerce and Science Streams, and a postgraduate Programme in Education. The undergraduate programmes follow the guidelines of the National Credit Framework (NCrF) under the National Education Policy 2020 (NEP 2020). The Research and Development Cell (RDC) is committed to strengthening the research ecosystem in the college and beyond and to fill research gaps within academia, involving students and teachers alike. As best practices, the college prioritises skilling students in diverse job roles and the development of the college as a green campus towards realising sustainability goals. The college offers a plethora of extra and cocurricular activities and has collaborations with leading institutes and organisations at the state and national level. Dimapur Government College strives to fulfil the aspirations of the people of Nagaland through relentless efforts to meet future challenges.
